### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Novais, no. 33,324, on 15 October 2007. The examiner suggested removing Fig. 5A from the drawings, as Fig. 5A is not described in the specification. The examiner requested that Applicant a substitute drawing sheet to this effect.

The application has been amended as follows:

In the Drawings, old sheet 6/19 (containing Figs. 5 and 5A) has been replaced with the attached replacement sheet (containing only Fig. 5) received 17 October 2007.

#### ***Election/Restrictions***

1. The requirement for election/restriction mailed 18 June 2007 is hereby withdrawn.

#### ***Response to Arguments***

2. Applicant's arguments filed 19 February 2007, with respect to claims 1, 47, 82-84, and 87-112 have been fully considered, and several of the arguments are persuasive. The rejections of claims 1, 47, 82-84, and 87-112 have been withdrawn.

Art Unit: 2854

a. The examiner agrees with applicant's arguments regarding the rejection of claims 1, 47, 87, 89, 93-95, and 98-112 under 35 U.S.C. § 102(b) as being anticipated by Landsman, US 4,764,815. Specifically, the examiner agrees that the independent claims require direct contact of the printing plate with the stationary support bed, and further that Landsman does not teach direct contact between the plate and the support bed.

### ***REASONS FOR ALLOWANCE***

3. Claims 1, 47, 82-84, and 87-112 are allowed.

4. The following is an examiner's statement of reasons for allowance:

a. Regarding claims 1, 47, 94, and 98, the prior art of record does not teach or render obvious a flat-bed plate-setter system comprising all of the claimed elements, including a drive means or carriage to engage a printing plate in direct contact with a support bed.

b. Regarding claim 87, the prior art of record does not teach or render obvious a method for imaging a printing plate having all of the steps and structure as claimed, including disposing a printing plate on, and in direct contact with, the stationary support area, and sliding the printing plate.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
